A reasonable entry of females, with some quality animals on show. The Montrue, Lyncol and Hanlibill herds were out in force providing the BIS and reserve - 2 very smart representatives of the breed.

Some good youngstock, with best kid and reserve from the Jadeandnats herd. Interesting to find from the catalogue that there were 3 generations of winners descended from Ramside Tamsin - no mean achievement in a breed not noted for consistency between generations. Well done! Thanks to all the helpers from milking stewards to catalogue markers, who together make the show happen.
