### **JUDGES COMMENTS:**

An interesting show; quite a few exhibits still shedding their winter coats and really not so many high yields as I would have expected at an early show. An excellent marquee and penning and well stewarded. Anjo Carly is at the awkward stage, milkwise, having kidded 10 months ago but has kept a fair yield. She is a lovely BT shape with a well attached udder which remains soft and silky after milking. Mineshop Maia is a 1st kidder BS of great promise. Milking heavily but at the expense of a little condition; I will look forward to seeing her again in a few months. I thought the AN goatling, Mineshop Chenoa to be excellent. She has a lovely head and earset and a promising shape. Just a goatling so just needs to mature on. Laxfield Forsythia is an "old-fashioned" BT kid at 11 months old. She is well grown, not at all "gawky" with good whites.
