BEST GOATLING Ellicar Marigold, **Res** Topgold Fallopia

BEST FEMALE KID Ivybeck Avocet, **Res** Longnewton India

JUDGES COMMENTS:

A good show of males, with some sound animals amongst them. Best GG is a sound male with substance and quality. Overall, the standard of exhibits bodes very well for the future of the breed.

A good entry with some quality animals. The GG section poses real problems from the point of breed improvement due to the shortage of foundation stock in the early days, and the debate over milk yields versus conformation and type. Many of the original faults such as poor feet and hindlegs have largely disappeared, and both breeds have improved markedly. Both BIS and Res were from the first kidder class. Some attractive youngstock in both breeds. Keep up the good work with stabilising and fixing type. Thanks to all the helpers for your patience and forbearance in very hot conditions.

| Goats Name | Reg No | Yield | Fat% AM | Fat% PM | Prot% AM | Prot% PM | Mths | PTs | Award |
