### **JUDGES COMMENTS:**

A good entry and a level standard in most classes with little or no tail. However several of the goats were decidedly ring rusty! 3 big good conditioned goats stood at the top of the IP line up. Taking all factors into account put Gallant Maple in a comfortable lead, she looks very well and is well presented. She also gives an excellent demonstration of the amazing long lactation capability of UK goat genetics, which is so rarely tested these days. Aphrodite Ariadne milking heavily and Nightshaze Lucerne is smart and bold bodied goat. I also liked Roundswell Kanga, immature as yet but has a well placed and well attached udder with nice teats, promises well for the future. Nice to see a well filled class of BA milkers. Sadly production in the class was disappointing with only 2 managing 2 kilos in the morning milking.
