The best class of animals came in the AOV class with good yields and the best structural conformations hence their IP positioning topped by Capitol Freja, a large goat with lovely udder, topline and bone. Stablemate Euphemia smaller in the same mould less strong in the pasterns. Treval Arabelle a very smart eye catching goatling.

Says a lot to me when a show of this calibre and importance cannot afford to offer prize money to any sections at the show despite not cheap entry fees. Why would you want to go to the expense of bringing kids and goatlings?

We need to seriously think how we as a society make demands on shows for extra marquee space and penning to meet segregation and for what outcomes? The death knell has already tolled for a number of agricultural shows and goat sections.

No crystal ball needed here!
