Judge's Comments:

Shame so low in numbers when such good penning for males and organisers go to such time and effort to put a show on for them. Adult males all worthy of a BCC and the Best, AN Buckling, Rockisland Hazel worthy of CC. Both AN's of good size, breed standard the buckling getting it over the year older Kaverquil Montigue on his better development for his age and looking slightly stronger on stance.

Judge's Comments:

Great to see younger exhibitors and families reminded me of the 70's. 2 first kidders top with good build, dairy type and condition. C. Juliet had the better udder but overall and with 1/2kg more milk am I gave best milker to B. Roxy. Top 2 goatlings both came from the Ballingall herd with the AN showing good strong breed type just taking it from the HB (BT type). Best kid also a stylish Ballingall AN of strong breed type just pipping the HB (BS type) which like the HB goatling looks promising for future generations. Interesting to note the 1st AN Milker (well worthy of its BCC on type), goatling and kid were all by Marshvalley Apollo.

I was presented in the AOV classes with a lot of IR registered English and 1 Old English (I was told). All good English types. They were at a disadvantage being shown against the British in a way, not being the same size and build, quite different types. There is no real guidance on this but rightly or wrongly I in my mind judged them as English and then slotted them in where I thought they deserved to be. If I had just judged them as an open dairy type they wouldn't have done quite so well, not having the size, build and milk quantity (in the milkers). They are more different in type to the British/Swiss than Guernsey's in a way.
